

Welcome to the latest edition of our quarterly newsletter, highlighting some of the many ways Abbott is improving lives around the globe.

Read on for a closer look at how we're putting the power of health in people's hands – with updates from the recent HLTH conference and a new campaign looking at how we're applying technology to help people better understand and take control of their own health.

You'll also find updates on our partnerships to address malnutrition and diabetes, and our recent inclusion on Fortune's prestigious Change the World list.

Your [feedback](#) matters, so please let us know what you think. And please share this newsletter and encourage others to subscribe [here](#).

TOP STORY: GETTING PERSONAL AT HLTH

We were excited to be at the recent [HLTH 2023](#) conference, which brings together leaders across the health spectrum. Our Chairman and CEO Robert Ford delivered a keynote looking at the future of healthcare: one that moves beyond “sick care” to connect technology with real insights into health – helping you to have better conversations with your doctor and more personal control to get and stay healthy.

Other HLTH sessions looked at breakthroughs in access and affordability for diabetes care, pioneering advances in pacemakers for the heart, and how the “food as medicine” movement is transforming the role of nutrition in health.

IN CASE YOU MISSED IT

INNOVATING FOR ACCESS AND AFFORDABILITY

Health Tech: The Most Helpful Technology of All

Shouldn't health tech make things easier? We think so – and that's why we're working hard to make sure technology helps where it matters most: connecting you with the insights and care you need. [More](#)

Expanding Access to Biosimilar Medical Advances

We recently announced a new agreement with mAbxience that will launch biosimilar medicines for oncology, women's health and respiratory diseases in emerging markets starting in 2025, helping make healthcare more accessible and affordable. [More](#)

TRANSFORMING CARE

Childhood Malnutrition Must Be Seen To Be Solved

Together with our partners Real Madrid and the Real Madrid Foundation, we are taking action to identify and address childhood malnutrition through awareness, education and screenings. Find out how. [More](#)

Sharing the Access Code to Open Up Diabetes Care

Through partnerships with organizations, local communities and governments, we're working to expand access and get our life-changing continuous glucose monitoring technology to more people with diabetes around the world. [More](#)

Abbott and WeightWatchers: Teaming Up for Diabetes

Our FreeStyle Libre 2 continuous glucose monitor now talks directly to the WeightWatchers app, so people living with diabetes can gain personal insights into how food and activity affect their glucose levels. [More](#)

Virus Hunt: Focusing on New Potential Pandemics

In this special extended film version of “The Virus Hunt” series, follow the Abbott Pandemic Defense Coalition as they identify, track, analyze and test emerging viruses around the globe. [More](#)

ADVANCING HEALTH EQUITY

Expanding Access With Community Health Centers

Abbott is teaming up with the National Association of Community Health Centers on an Innovation Incubator that aims to inspire new ways to break down the digital divide in healthcare. [More](#)

One Size Does Not Fit All for Clinical Trials

As part of our broader work to expand health access, we're expanding the reach and impact of our clinical trials with three new initiatives to enhance diversity among both participants and investigators. [More](#)

WORKFORCE OF TOMORROW

Abbott Named to Fortune Change the World List

We earned a spot on Fortune's prestigious list for our groundbreaking Freedom 2 Save program, which is transforming employee financial wellness by helping them pay down their student loans while still saving for retirement. [More](#)

RESILIENT SUPPLY CHAIN

Abbott Inducted Into Billion Dollar Roundtable

The recognition honors organizations that have achieved a significant milestone of \$1 billion in spending with diverse suppliers – an important benchmark for our broader work to build a resilient and sustainable supply chain. [More](#)
